Event Management API - Documentation

Overview:

This is a Django REST Framework-based Event Management System allowing users to create events, RSVP, and write reviews, secured with JWT authentication.

Features:

- JWT Authentication

- Event CRUD

- RSVP System

- Review System

- Permissions (Organizer-only edits, private event access control)

- Pagination, Search, Filtering

- Automated Unit Tests

API Endpoints:

/api/token/ - Get JWT tokens

/api/events/ - List or create events

/api/events// - Get, update, or delete event

/api/events//rsvp/ - RSVP to event

/api/events//reviews/ - Add or list reviews

Technologies:

- Django 6

- Django REST Framework

- SimpleJWT

- SQLite (default)

Run Commands:

```
python manage.py makemigrations

python manage.py migrate

python manage.py runserver
```
